## About Us

Kiwi Interio, truly a pearl among the stones is led by a very dynamic and young team of professionals. We value the relation and attachment a person develops with the piece of wood known as Furniture.

We are the people known for quality but we take care that quality does not hurt the pocket. Rest assured, Quality does come at a price. Our main aim is to go hand in hand with the ever evolving needs of our customer and to satisfy him at each step.

Our long history is a testament in itself that we now understand and value our relationships better.

Jasmine Pearl, in it's constant endeavour to offer world class products brings to you a new edition of it's latest offerings.

Our world is not limited by wood alone; we have added more twists, turns and created a fusion of a harmonious melody of wood, metal, leather, fabric and plastic.
